A copy of the notification must be submitted to Leipziger Messe (Technical Event Management Department).

The presentation may only be performed by a person who has been accredited pursuant to sec. 20 SprengG (Explosives Act).

3. Requirements and information

Safety clearances must be adhered to in accordance with manufacturer specifications.

The safety areas must be kept free of fire loads.

An adequate amount of extinguishing material must be held available.

(Specifications to be defined depending on scope and location)

The DGUV Regulation 1 (formerly BGV C1) § 28/3 must be adhered to

The notice from the Regulatory Authority must be submitted to Leipziger Messe for acknowledgement.

Burn-offs near the entrance hall West (Glashalle) require the provision of a written guarantee that no part of the fireworks material will fall on the roof of the glass hall.

The trade fair halls are covered with a so-called "soft roof"; an inspection will be carried out by the security firm of Leipziger Messe in the case of high-altitude fireworks (subject to charges).

Other events that are taking place at the same time may not be disturbed.

4. Implementation

Presentations may only be commenced once all boundary conditions and requirements have been met.
